Two Kangxi Versions of Complete Map of Yellow River and Grand Canal in Overseas Collection

Xi Huidong

Abstract: The two identical versions of Complete Map of Yellow River and Grand Canal (anonymous, undated, handscroll, ink and colour on silk) in the Kyujanggak of Seoul National University and Bibliothèque nationale de France illustrate water conservancy projects on the Yellow River and the Grand Canal during the term of Dong Anguo, Director General of Rivers, in the mid Kangxi reign, Qing dynasty. They give special importance to river projects in the Jiangnan region. The inclusion of both the Yellow River and the Grand Canal within one map is typical for the Ming and early Qing cartography. These two maps are important in the history of Qing dynasty cartography and water conservancy.

Key Words: Complete Map of Yellow River and Grand Canal; Kyujanggak of Seoul National University; Bibliothèque nationale de France; Kangxi reign; Dong Anguo
